Announcement of 12/06/88 Public Mtg

Department of Energy
Oak Ridge Operations
Weldon Spring Site
Remedial Action Project Office
Route 2, Highway 94 South
St. Charles, Missouri 63303

November 22, 1988

Dr. Frederic Brunner, Director
State of Missouri Department
of Natural Resources
Post Office Box 176
Jefferson City, Missouri 65102

Dear Dr. Brunner:

As a community leader with a strong interest in the Weldon Spring Site Remedial Action Project, I would like to extend a special invitation to you to attend a public information meeting co-sponsored by the U.S. Department of Energy and the U.S. Environmental Protection Agency at 7:30 p.m. on Tuesday, December 6, at Young Auditorium at Lindenwood College. Members of the various state agencies providing regulatory overview of the project will also be in attendance.

Topics to be presented will include the recently released environmental compliance Work Plan. The Work Plan lays out the activities and processes which must be carried out in order to reach site cleanup decisions. Another topic to be presented will be a status report on site Interim Response Actions or IRA's. IRA's are those near term activities that are undertaken to improve environmental conditions at the site.

Presentations will be short and will be followed by a question and answer period. All interested individuals are invited to attend.

I look forward to your attendance at this meeting.

Sincerely,

Rodney R. Nelson
Project Manager
Weldon Spring Site
Remedial Action Project
