GWOU ADMINISTRATIVE RECORD
SECTION TITLE:
GW-800-801-1.07

87958

RESOLUTION 8-24-2000 (E)

WHEREAS, the residents of the City of Weldon Spring, Missouri desire and deserve clean water supplies, now and in the future; and

WHEREAS, for years the United States Department of Energy has been cleaning up the former Mallinckrodt Chemical Works at Weldon Spring, in Charles County, Missouri; and

WHEREAS, from 1957 to 1967, Mallinckrodt Chemical Works processed uranium and thorium for nuclear weapons for the old Atomic Energy Commission at Weldon Spring and because uranium, TCE, nitrates and nitroaromatic compounds remain as contaminants in the groundwater; and

WHEREAS, even though the DOE has already spent approximately one billion dollars on cleanup; if they are allowed to shut down their cleanup program without cleaning up the groundwater; the groundwater will continue to be a risk to the Conservation Department Springs and recreational visitors.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Aldermen of the City of Weldon Spring, Missouri, on behalf of the residents of the City of Weldon Spring and surrounding areas, support the Missouri Department of Natural Resources and urge Mr. Stephen M racken – Project Manager at the Weldon Spring site to adequately develop and assess groundwater treatment alternatives and to pursue a thorough clean up of all contaminated groundwater.

CONSIDERED AND ADOPTED BY A MAJORITY VOTE OF THE BOARD OF ALDERMEN OF THE CITY OF WELDON SPRING, MISSOURI ON THIS 24th DAY OF August, 2000.

PRESIDING OFFICER/MAYOR
