Mr. Walter Krywucki
Hydro-Pure Systems Company
457 Route 53
Denville, N.J. 07834

Dear Walter,

As an elected official concerned about the health of my constituents, I would greatly appreciate answers to the questions raised by Kay Drey in the copy of the enclosed letter.

I certainly encourage the immediate clean up of the Weldon Spring quarry water. However, I also believe it is crucial not to then proceed with disposing of that water in the river until there are better guarantees that you are not endangering the health of others.

I'm sure you too share concern for safe solutions to environmental problems. Therefore, a response to the enclosed questions is extremely urgent.

Thanks for your help.

Sincerely,

Geri
