

GWOU ADMINISTRATIVE RECORD
SECTION TITLE:
GW-300-304-1.06

Mr. Phil Schroeder

-2-

This letter is to specifically notify your organization of this activity. We have mentioned it briefly in recent Discharge Monitoring Reports, but want to be sure you have an opportunity to see the design specifications for this activity. The Division of Geology and Land Survey and the Federal Facility Section of the Hazardous Waste Program have been involved in the process of selecting and implementing this remedial action. We will address any specific issues your program identifies. We are scheduled to award the contract before the end of the year, and at that time we will send you additional information regarding the chemicals to be injected. If you have any questions regarding this matter, please contact Tom Pauling at (636)926-7051.

Sincerely,

ORIGINAL SIGNED BY
PAMELA THOMPSON
